An introduction to the High Performance Classroom

Creating a Performance Classroom

Objectives

- To have an overview of the conditions that lead to high performance
- To consider the factors that lead to a high-performance classroom culture
- To think about how you will make your classroom a high-performance classroom
- To think about how your classroom environment can promote high performance

Belief + Behaviour = Performance...

Activity Values Game

'The Values Game'

How do these beliefs shape our classroom practice?

Activity:

In pairs, consider the eighteen statements and organize them into three groups:

- Things I believe
- Things I don't believe
- Things I'm unsure whether I believe or not

Now discuss your opinions with another pair on your table.

The performance classroom means...

1. Looking to change the **classroom culture**
2. Introducing the HPL **learning language**
3. Re-thinking some **task designs**
4. Encouraging more **classroom dialogue**
5. Making time and requiring students to **reflect on their learning**
